

# Safety Pharmacology Society Strategic Plan 2010–2013

Vision

The Society is committed to uniting the global safety pharmacology community in the development and safe use of biologically active molecular entities by bridging across disciplines to allow the identification, characterization, and monitoring of potentially undesirable pharmacodynamic activities in nonclinical studies and guiding their translation into clinical trials.

Strategic Purpose

Leaders in Safety Pharmacology providing answers to critical questions that matter to patients, regulators, and scientists.

Strategic Goals/  
Priorities

**Build for the Long-Term Sustainability of the Society**

**Create Resources for the Field of Safety Pharmacology**

**Increase Value for the Membership (Current and Future)**

**Strengthen Alignment of the Society's Resources**

Tactical Objectives/  
Key Outcomes

**Create and Strengthen Partnerships with Global Organizations by:**

- Annual Meeting Rotation
- Educational Outreach Programs to Asia
- Supplying Faculty for International Meetings
- University Certification Program

**Strengthen Educational Opportunities by:**

- Academic Outreach Programs
- Additional Meetings/Webinars
- Annual Meeting, Scientific Program, and CE Courses
- Co-Sponsored Programming with Other International Societies
- Recognize Young Investigators (Travel Awards)
- Best Practices Recommendations
- University Certification Program
- Utilization and Growth of the Education Fund
- Virtual Trade Show Available Year-Round

**Increase Awareness of SPS Membership Benefits by:**

- Encourage Participation in Committee Activities
- Recognition of Member Service
- “SPShare” Secure Collaborative Network
- “SPSpeak” Open Forum
- Enhanced Web Site
- On-Line access to the J Pharm. Toxicol. Methods

**Align Organizational Structure and Finances with Strategic Plan by:**

- Strengthen Member Retention—Acknowledge Member Contributions (Awards)
- Academic and Asian Outreach Programs
- Annually Review Strategic Plan
- “SPShare” Secure Collaborative Network

Tools/  
Processes for Achieving Objectives

**Establish Forum for Global Communication by:**

- Additional Meetings/Webinars on Topics of Current Importance
- Annual Meeting Rotating Internationally
- “SPShare” Secure Collaborative Network

**Enhance Awareness of the Field of Safety Pharmacology by:**

- Additional Meetings/Webinars
- Annual Meeting
- Best Practices Workshop/White Papers
- Journal Submissions
- “SPSpeak” Open Forum
- Web Site

**Enhance Sustainability of Organization by:**

- Develop Future SPS Leaders
- Expand Educational Programs
- Maintain Sound Financial Policies

*The Society has begun investing in tools and processes to address the Tactical Objectives/Key Outcomes in order to move the Society forward in achieving Strategic Goals/Priorities.*
